

Report on Workshop on Teaching Learning Material and adaptive devices.

Date: 11th March 2025

Time: 9:30 am to 1:00 pm

Venue: GRIID, Sector 31 – C, Chandigarh.

Resource person: Ms. Paramjeet Kaur

Retired from government model, senior secondary school, 33 D, Chandigarh as TGT Qualification MA, M.Ed., 34 years of experience.

Now doing workshops for TLM development to make curriculum interesting and joyful for the primary teachers, cluster level and state level at SCERT

State award 2010

Tarachand Sabu award 2010

Objective: To equip educators and parents with innovative teaching learning materials and strategies that incorporate play activities, to enhance student engagement and learning outcomes by using readily available resources, promoting effective learning and development in children.

Participants: 73 parents of the students of GRIID School and all the special educators and vocational instructors.

Overview of workshop:

The workshop was inaugurated by Joint Director GRIID Dr. Ajeet Sidana by lightening the lamp and enlightening parents about the importance of this workshop and making them competent for training their children using playful method through these TLM at home.

Dr. Ajeet Sidana, Joint Director GRIID welcomed resource person Ms. Paramjeet Kaur with a Planter and a Hamper prepared by the products made by GRIID Students.

The workshop focused on demonstrating how simple, low-cost materials can be transformed into effective teaching learning materials and was designed to provide educators with hands-on experience in using play-based teaching learning materials. The session was divided into two parts: **demonstration and hands-on activity.**

The workshop was conducted in two slots:

For parents: 9:30 am to 10:30 am

For special educators and vocational instructors: 11:30 am to 1:00 pm

Demonstration Session:

- The resource person Ms. Paramjit Kaur showcased various simple teaching learning materials made from everyday objects such as cardboard, fabric, paper, waste plastic bottles, treads, ribbons etc.
- Participants were introduced to creative ways of using these materials to teach various concepts, including literacy, numeracy, and social and communication skills.

Hands-on Activity Session:

- Teachers were engaged in a hands-on activity, creating their own simple teaching learning materials using the demonstrated techniques and materials.
- The facilitators provided guidance and support, encouraging participants to think creatively and explore new ideas.

Outcomes:

1. **Increased creativity:** Participants demonstrated increased creativity in designing and creating simple teaching learning materials.
2. **Improved resourcefulness:** Participants learned to utilize readily available resources to create effective teaching learning materials.
3. **Enhanced confidence:** Participants expressed confidence in their ability to create simple teaching learning materials and integrate them into their teaching practices.

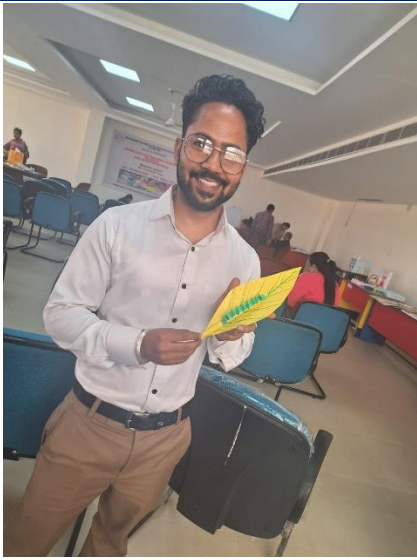

Feedback and Testimonials:

This workshop has inspired teachers and parents to think creatively and explore new ways of teaching and learning and parents said that they learnt how simple materials like cardboard and fabric could be used to create such effective teaching learning materials even at home and make learning more effective.

Recommendations:

Regular workshops: Conduct regular workshops and establish a platform to provide ongoing support and training for parents and teachers.

Conclusion:

The Teaching Learning Material Workshop was a resounding success, empowering parents and teachers with the skills and knowledge to create simple teaching learning materials using readily available resources. We look forward to continuing this initiative and promoting innovative teaching practices that support effective learning and development in children.
